

# Uplyme Together

## Call for Housing Sites

The Uplyme Neighbourhood Plan is well underway. A series of consultation events have been held, most recently on 31<sup>st</sup> January 2015 in the Village Hall. At the exhibition, people were invited to mark a map with locations which they thought would be suitable for small scale housing development; notably affordable housing for local people. A number of sites were identified on the day.

In order to ensure that all landowners have the opportunity to put forward their land/sites for consideration, the next stage is this 'Call for Sites'. All sites proposed will be evaluated against a number of planning criteria, and there will be further community consultation and also engagement with East Devon District Council planners, before any are included in the Neighbourhood Plan.

Anyone who is interested in their land being considered is invited to email details, including a site description, location plan and photographs to the Clerk by Friday 10th April 2015.

## **Do you work from home?**

As part of the work linked to the preparation of the Neighbourhood Plan, a survey of local businesses was undertaken. One of the issues being addressed is broadband and mobile phone connectivity. The Group is aware that some people in the Parish work from home and connectivity can be important to business. We would therefore be grateful if home workers could notify us by email of the following details:

- Name
- name of business
- nature of business
- your views on connectivity to your property.

Please email the Clerk who will pass on your information.
